PROFILE

Computer Science Engineering (AI/ML) undergraduate with expertise in Java, SQL, Data Structures, and OOP. Experienced in backend development, REST APIs, database management, and machine learning fundamentals. Seeking Software Engineer or Java Developer opportunities.

EDUCATION

B.E. Computer Science Engineering (AI/ML), Rathinam Technical Campus 2023 – Present
Coimbatore
CGPA: 8.94

Higher Secondary Certificate (Bio-Mathematics), 2021 – 2023
N.G.N.G. Higher Secondary School Pollachi
Percentage: 86%

Secondary School Leaving Certificate 2019 – 2020
N.G.N.G. Higher Secondary School Pollachi
Percentage: 100%

TECHNICAL SKILLS

Programming

- Java, C, Python

ERP & SAP Skills

- SAP ERP, FICO, MM

Libraries

- Pandas, NumPy, Matplotlib

Database

- PostgreSQL

Core Concepts

- Data Structures, OOP

Tools

- Git, GitHub, Postman

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern, amasQIS.ai Aug 2025 – Mar 2026
• Built ML models using Python and optimized data preprocessing.
• Analyzed datasets and improved workflow efficiency.

Software Intern, CodSoft Jan 2025 – Mar 2025
• Developed Java applications using OOP principles.
• Built a quiz application and improved system efficiency.

PROJECTS

ShobBridge AI – Skill Gap & Career Guidance System

Project Link: github.com/shobana47/ShobBridgeAI 🔗

Technologies: Java, MySQL, REST APIs

- Developed a career guidance and placement preparation platform.
- Implemented resume analysis, career recommendations, and mock interview modules.
- Integrated REST APIs and database-driven features.

WORKSHOPS

Search Engine Optimization (SEO), United Technology

- Learned Search Engine Optimization (SEO) concepts including keyword research and on-page optimization
- Understood search engine ranking factors and content optimization strategies

CERTIFICATIONS

- SQL – HackerRank
- Analytics for Beginners – Google
- Global Hackathon – HackerEarth
- Design Thinking – Coursera

STRENGTHS

- Analytical Thinking
- Problem Solving
- Team Collaboration
- Adaptability
